

**SYSTEMS, METHODS, AND COMPUTER-READABLE MEDIA FOR EXPEDITED
ACCESS TO CONFERENCE CALLS**

ABSTRACT OF THE DISCLOSURE

Methods, systems, and computer-readable media for admitting conferees into a
5 conference call. Methods to achieve the foregoing can comprise: receiving a request from the
conferee for access to the conference call; obtaining data representing a unique identifier
associated with the conferee; matching the data representing the unique identifier with data
representing an identifier that was previously associated with the conferee; and connecting the
conferee directly to the given conference call.
